## STAFF REPORT

**Date:** Tuesday, September 27, 2016  
**To:** Bryan H. Montgomery, City Manager  
**From:** Kevin Rohani, P.E. Public Works Director/ City Engineer

Approved and Forwarded to City Council:

  
Bryan H. Montgomery, City Manager

**SUBJECT:** Award of Construction Contract to Martell Water Systems Inc. for the Bridgehead Road Pump Station Rehabilitation Project – CIP 195

### Background and Analysis

The existing storm drain pump station on Bridgehead Road under the BNSF railroad crossing was built by the County years ago prior to the incorporation of the City of Oakley. This pump station has had numerous breakdowns over the past 2 years, which has resulted in the shut-down of the pump, and the flooding of Bridgehead Road.

The pump that has been used in this pump station is very old, past its useful life, and is no longer manufactured. Staff has explored many options as to how best to get this pump station operational. In addition to the issue with the pump breakdown, there is also damage to the wiring in the system; which needs to be replaced. Staff solicited input from a pump station expert who specializes in the design of a similar system. The final determination was to abandon the repair concept of the existing pump, and replace it with a new and functional pump package. This approach would ensure this pump station would be ready for service ahead of the winter months, and the rainy season.

The project plans and specifications were prepared and advertised for the construction of this project. On September 15, 2016, one (1) bid was received for this project in the amount of \$38,172.02. Staff reviewed the bid received and determined that Martell Water Systems, Inc. is a responsible entity and is responsive to the City's request for proposals. Martell Water Systems, Inc. is a local company who knows the Oakley region very well, and has performed a number of similar projects in Oakley.

### Fiscal Impact

The FY 2016/17 CIP Budget for Project 195 has a total budget allocation of \$45,000 from Storm Drain Funds, which will be used for the construction of this project.

**Staff Recommendation**

Staff recommends that the City Council adopt the resolution approving staff to process a construction agreement with Martell Water Systems, Inc. for an amount not to exceed \$38,172.02, and authorizing the City Manager to execute said agreement.

Additionally, due to variables associated with construction projects and to address unforeseen circumstances during the course of construction; Staff further recommends that the City Council authorize Staff to execute future change orders to the construction contract as necessary, in an amount not to exceed \$5,000 for work beyond what is defined in the base project bid.
