

Full *STEAM* Academy on schedule to open **NEW** concept Preschool and Early Childcare Center in Oakley, California, Spring 2018

In keeping with brand's commitment to excellence in creating dynamic preschool experiences, **Full *STEAM* Academy's** (FSA) plans to introduce a state of the art facility in Oakley, California are well underway.

The FSA Oakley Center is, currently, under construction at the corner of Neroly Road and Everlasting Way, adjacent to the Diamond Hills Sports Club. The 10,000 square foot plus facility will provide a, safe, clean environment for approximately 150 children, 12 months thru Kindergarten featuring an interactive technology lab, a creative arts studio, and a modern outdoor recreation area to inspire playful learning.

FSA is collaborating with **STAFFORD KING WIESE ARCHITECTS** of Sacramento to complete this project build. FSA has a long-standing relationship with the architectural firm and looks forward to unveiling this one of a kind facility.

The exterior of the building adheres to traditional architectural interpretations with a welcoming main entrance tower utilizing enhanced steel accents to compliment existing surroundings. A large, secure, entrance vestibule and reception lobby has been designed with the utmost attention to customer service.

FSA Oakley Center's overall environment will have a modern feel with a natural palette showcasing a background of textured wood tones and neutral colors with accent colors inspired by the FSA logo. The open feel and balance of the structure will take advantage of natural lighting with skylights as well as thoughtful recessed illumination throughout. The proposed interior intentions will create a familiar and sunny atmosphere for children and staff to learn and grow.

The opening of FSA's Oakley facility is scheduled for **Spring 2018**. For more information on our programs, employment opportunities or to register for our new student interest list, please go to www.FSAchildrensacademy.com
