Join us for

Visioning Workshops

The City of Oakley is updating its General Plan - a document that serves as the City's 'playbook' for decisions on land use, infrastructure, public services, resource conservation, and much more! The update will ensure the General Plan continues to reflect the vision and values of the community and will also address recent requirements of State law related to environmental justice, climate adaptation, and mobility and circulation.

Join us at the upcoming Visioning Workshops to discuss the future of Oakley. Each workshop will be held at the Oakley Community Recreation Center located at 1250 O'Hara Avenue, Oakley.

Workshop #1 Community Vision

Wednesday, June 5, 2019 @ 6:00 pm

This workshop will focus on identifying and confirming the vision for Oakley's future. Workshop participants will be invited to identify the City's assets as well as challenges that should be addressed. Environmental justice, including social equity and access to a healthy and safe living environment, and approaches to address adaptation to the effects of climate change will be discussed.

Workshop #2 Mobility

Wednesday, June 12, 2019 @ 6:00 pm

This workshop will focus on mobility, including complete streets, access to transit, facilities for pedestrians and bicyclists. This workshop will also include an overview of comments related to the vision for the community and input regarding environmental justice and climate change.
