F. ADMINISTRATION AND OVERHEAD COSTS; ACTUAL COSTS

1. City of Oakley administrative and overhead costs are equal to 27% of all Construction Permit Fees. The City's administrative and overhead costs shall be included in the total amount charged for all Building Inspection Department services in a manner prescribed by the Building Inspection Department.

2. Actual costs include the City's administrative and overhead costs.

Section 2: Valuation

The determination of value or valuation under any provisions of the City Building Code shall be made by the Building Official. The total valuation to be used with the Fee Schedule shall be determined using the Building Valuation Data contained in the Building Standards magazine, published by the International Conference of Building Officials, Whittier, California. The data in the March-April issue of each year shall be used for the ensuing fiscal year. Work not listed in the Building Valuation Data shall be valued per the Building Valuation Data Supplement.

The valuation to be used in computing Construction Permit Fees shall be the total valuation of all construction work for which the permit is issued, as well as all finish work, painting, roofing, mechanical, electrical, plumbing, heating, air conditioning, elevators, fire extinguishing systems, and any other permanently installed equipment.

For industrial facilities, the value of process equipment and heavy machinery supported by the structure or by its own foundation shall be included. Contractor overhead and profit shall be included.

The valuation of grading, retaining walls, paving and other site work, and any demolition work, shall be included unless such work was included in other permits issued by the Building Inspection Department.

The valuation data is used to establish consistent criteria for calculating permit fees, and the calculated total valuation does not necessarily reflect actual costs. The County Assessor does not rely on these costs, but performs independent assessments of the permitted work.
